

MAXTREAT[®] CF

Single part, non shrink, cementitious crack sealer for plaster, masonry and concrete

Maxtreat CF is a crack sealing cementitious material in powder form. It is easy to apply and can be finished or smoothed off with a putty blade or a damp sponge. It sets quickly on application and can be over coated with common paints / coatings.

Uses

Maxtreat CF is used for sealing cracks on plaster, masonry and concrete substrates.

Benefits

- **Single component** - easy to use
- **Versatile** - can be used for plaster, masonry or concrete, can be painted after application
- **Non sagging** - can be used for horizontal, vertical and overhead applications
- **Good adhesion** - effective bonding with substrate
- **Non Shrink** - shrinkage cracking eliminated

Properties

Colour	White
Setting time	15 to 20 min
Compressive strength (ASTMC109)	22 N/mm ² in 7 days and 24 N/mm ² in 28 days
Fresh wet density	1.95 g/cc
W/p Ratio	0.36
Mix proportions by volume	1 part water : 2.5 -3 parts of powder
Minimum application temperature	10°C

Instructions for use

Surface Preparation

The cracks to be sealed shall be saw cut or chiselled to form a 'V' groove of approximately of 6mm x 6mm. The grooves shall be cleaned to remove all the loose particles, dust, etc. The groove shall be sprinkled with clean water before applying the sealing mortar.

Mixing

Maxtreat CF shall be mixed with water adopting w/p ratio 0.36 by weight or a mix proportion of 1 part of water to 2.5 - 3.0 parts of Maxtreat CF, by volume.

Thorough mixing shall be carried out till a smooth, homogenous paste is obtained.

Application

The mixed paste is filled into the groove by gloved hand and the surface finished using a putty blade. This is continued till the full length of crack is sealed.

Curing

Curing is necessary only when groove size exceeds 6mm width or in areas exposed to UV.

Cleaning

Tools may be cleaned with clean water as Maxtreat CF is a cement based product.

Limitations

Maxtreat CF crack sealer cannot be used for moving cracks and for crack width greater than 30mm.

Health & Safety instructions

Maxtreat CF has no health hazards in normal use. Gloves shall be worn while mixing and during application. Splashes of material to the eyes shall be washed off with clean water. In the event of prolonged irritation, medical advice shall be sought.

Fire

Maxtreat CF is non flammable

Storage

Shelf life

Maxtreat CF has a shelf life of 6 months in original unopened packs if stored in unopened conditions below 35°C.

Packing

Maxtreat CF is supplied in 1 and 5 kgs bag.

Coverage

25 m per kg for a V groove crack of 6mm x 6mm. The actual coverage may vary depending on the substrate conditions.
